

REBOUND® DUAL

Get back in the game

Whether you are still rehabilitating from an injury or fully recovered, Rebound DUAL provides functional support for ligament instability. Ask your doctor if Rebound DUAL can help you get back in the game.

Low-profile, lightweight design protects without restricting normal movement

25 color combinations ensure a match for most team uniforms

Removable straps and liners for easy cleaning and replacement

“Rebound DUAL lets me move the way I want to move. I barely notice that I have it on!”

– Jordan P.

REBOUND® DUAL

Get back in the game

Indications for Use

Supports ACL, MCL, LCL, PCL or combined instabilities

Slide-to-size convenience

The upper frame is easily adjustable from 12.5" to 14" to help ensure a snug fit across a variety of patient heights.

Cold-malleable comfort

The aluminum frame is lightweight and cold-malleable for easy adjustability in the field and optimal patient fit and comfort.

No-slip ActiveGrip™

The breathable calf liner features ActiveGrip anti-slip technology. Once in place, it stays in place.
